INFORMATION REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2023 (the "Form 10-Q") and other documents filed by us with the Securities and Exchange Commission (the "SEC") contain, and future oral or written statements or press releases by us and our management may contain, forward-looking statements within the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Generally, the words "expects," "anticipates," "targets," "goals," "projects," "intends," "plans," "believes," "seeks" and "estimates," variations of such words and similar expressions identify forward-looking statements. All statements, other than statements of historical fact, included in this Form 10-Q regarding our financial position, financial performance, liquidity, strategic alternatives, market outlook, future capital needs, capital allocation plans, business strategies and other plans and objectives of our management for future operations and activities are forward-looking statements. These statements are based on certain assumptions and analyses made by our management in light of their experience and prevailing circumstances on the date such statements are made. Such forward-looking statements, and the assumptions on which they are based, are inherently speculative and are subject to a number of risks and uncertainties that could cause our actual results to differ materially from such statements. Such risks and uncertainties include, but are not limited to:

- risks and uncertainties regarding the continuing effects of residual bankruptcy proceedings on us and our various constituents; attendant risks associated with restrictions on our ability to pursue our business strategies;
- the difficulty to predict our long-term liquidity requirements and the adequacy of our capital resources;
- restrictive covenants in the Credit Facility (as defined below) could limit our growth and our ability to finance our operations, fund our capital needs, respond to changing conditions and engage in other business activities that may be in our best interests;
- the conditions in the oil and gas industry;
- U.S. and global market and economic conditions, including impacts relating to inflation and supply chain disruptions;
- the effects of public health threats, pandemics and epidemics, and the adverse impact thereof on our growth, operating costs, supply chain, labor availability, logistical capabilities, customer demand and industry demand generally, margins, utilization, cash position, taxes, the price of our securities, and our ability to access capital markets;
- the ability of the members of Organization of Petroleum Exporting Countries ("OPEC+") to agree on and to maintain crude oil price and production controls;
- operating hazards, including the significant possibility of accidents resulting in personal injury or death, or property damage for which we may have limited or no insurance coverage or indemnification rights;
- the possibility of not being fully indemnified against losses incurred due to catastrophic events;
- claims, litigation or other proceedings that require cash payments or could impair financial condition;
- credit risk associated with our customer base;
- the effect of regulatory programs and environmental matters on our operations or prospects;
- the impact that unfavorable or unusual weather conditions could have on our operations;
- the potential inability to retain key employees and skilled workers;
- political, legal, economic and other uncertainties associated with our international operations could materially restrict our operations or expose us to additional risks;
- potential changes in tax laws, adverse positions taken by tax authorities or tax audits impacting our operating results;
- changes in competitive and technological factors affecting our operations;
- risks associated with the uncertainty of macroeconomic and business conditions worldwide;
- risks to our operations from potential cyber-attacks;
- counterparty risks associated with reliance on key suppliers;
- challenges with estimating our potential liabilities related to our oil and natural gas property;
- risks associated with potential changes of Bureau of Ocean Energy Management ("BOEM") security and bonding requirements for offshore platforms;
- the likelihood that the interests of our significant stockholders may conflict with the interests of our other stockholders;
- the risks associated with owning our Class A Common Stock, par value $0.01 per share (the "Class A Common Stock"), for which there is no public market; and
- the likelihood that our stockholders agreement may prevent certain transactions that could otherwise be beneficial to our stockholders.

These risks and other uncertainties related to our business are described in detail in our Annual Report on Form 10-K for the year ended December 31, 2022 (the "Form 10-K"). We undertake no obligation to update any of our forward-looking statements in the Form 10-Q. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof.

(1) Basis of Presentation

Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles ("GAAP") have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"); however, management believes the disclosures are adequate such that the information presented is not misleading.

As used herein, the "Company," "we," "us" and similar terms refer to Superior Energy Services, Inc. and its consolidated subsidiaries, unless otherwise specifically stated.

These financial statements and notes should be read in conjunction with the consolidated financial statements and notes thereto included in our Form 10-K.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments, consisting primarily of normal recurring adjustments, necessary for a fair statement of our financial position as of June 30, 2023, our results of operations for the three and six months ended June 30, 2023 and 2022, and our cash flows for the six months ended June 30, 2023 and 2022. The balance sheet as of December 31, 2022, was derived from our audited annual financial statements, but does not contain all of the footnote disclosures from the annual financial statements.

Accounts Receivable

Trade accounts receivable are recorded at the invoiced amount or the earned amount but not yet invoiced and do not bear interest. We maintain an allowance for credit losses based on our best estimate of probable uncollectible amounts in existing accounts receivable. Adjustments to the allowance for credit losses in future periods may be made based on changing customer conditions. Our allowance for credit losses as of June 30, 2023 and December 31, 2022 was approximately $6.5 million and $6.1 million, respectively.

(3) Inventory

Inventories are stated at the lower of cost or net realizable value. We apply net realizable value and obsolescence to the gross value of inventory. Cost is determined using the first-in, first-out or weighted-average cost methods for finished goods and work-in-process. Supplies and consumables consist principally of products used in the services provided to our customers. The components of inventory balances are as follows:

	June 30, 2023	December 31, 2022
Finished goods	$ 45,319	$ 36,136
Raw materials	7,898	8,351
Work-in-process	13,759	4,718
Supplies and consumables	15,921	16,382
Total	$ 82,897	$ 65,587

Finished goods inventory includes component parts awaiting assembly of approximately $22.2 million and $20.7 million as of June 30, 2023 and December 31, 2022, respectively.

(4) Decommissioning Liability

We account for our decommissioning liability under ASC 410 – *Asset Retirement Obligations*. Our decommissioning liability is associated with our oil and gas property and includes costs related to the plugging of wells, decommissioning of the related platform and equipment and site restoration. We review the adequacy of our decommissioning liability whenever indicators suggest that the estimated cash flows and/or relating timing needed to satisfy the liability have changed materially.

The following table presents our total decommissioning liability as of the periods indicated:

	June 30, 2023	December 31, 2022
Wells	$ 93,564	$ 96,171
Platform	66,356	64,500
Total decommissioning liability	159,920	160,671
Note receivable	(71,581)	(69,679)
Total decommissioning liability, net of note receivable	$ 88,339	$ 90,992

Accretion expense for the three and six months ended June 30, 2023 was $2.4 million and $4.7 million, respectively, and $2.7 million and $5.4 million for the three and six months ended June 30, 2022, respectively. Additionally, during the six months ended June 30, 2023, we incurred well decommissioning costs of $5.5 million.

(5) Note Receivable

Our note receivable consists of a commitment from the seller of oil and gas property for costs associated with abandonment. Pursuant to an agreement with the seller, we invoice the seller an agreed upon amount at the completion of certain decommissioning activities. The gross amount of the seller's obligation to us is $105.2 million and is recorded at its present value, which totaled $71.6 million as of June 30, 2023.

The discount on the note receivable is currently based on an effective interest rate of 5.6% and is amortized to interest income over the expected timing of the completion of the decommissioning activities, which are expected to be completed during the second quarter of 2031. Interest receivable is considered paid in kind and is compounded into the carrying amount of the note.

Non-cash interest income related to the note receivable for the three and six months ended June 30, 2023 was $0.9 million and $1.9 million, respectively. Non-cash interest income related to the note receivable for the three and six months ended June 30, 2022 was $1.0 million and $2.0 million, respectively. Interest income is included in other reconciling items, net in the Condensed Consolidated Statements of Cash Flows.

(6) Property, Plant and Equipment, Net

A summary of property, plant and equipment, net is as follows:

	June 30, 2023	December 31, 2022
Machinery and equipment	$ 413,937	$ 378,907
Buildings, improvements and leasehold improvements	70,394	70,816
Automobiles, trucks, tractors and trailers	6,546	6,376
Furniture and fixtures	19,384	19,373
Construction-in-progress	11,756	5,185
Land	26,698	26,695
Oil and gas producing assets	12,339	11,714
Total	561,054	519,066
Accumulated depreciation and depletion	(262,487)	(236,690)
Property, plant and equipment, net	$ 298,567	$ 282,376

Depreciation and depletion expense associated with our property, plant and equipment for the three and six months ended June 30, 2023 was $18.0 million and $35.6 million, respectively. For the three and six months ended June 30, 2022, depreciation and depletion expense associated with our property, plant and equipment was $20.4 million and $51.6 million, respectively.

(7) Debt

We have a Credit Agreement providing for a $120.0 million asset-based secured revolving Credit Facility, all of which is available for the issuance of letters of credit (the “Credit Facility”) which matures in December 2024. The issuance of letters of credit reduces availability under the Credit Facility on a dollar-for-dollar basis.

As of June 30, 2023, our borrowing base, as defined in the Credit Agreement, was approximately $120.0 million, and we had $34.7 million of letters of credit outstanding that reduced the borrowing availability. We had no outstanding borrowings under the Credit Facility as of June 30, 2023. We were in compliance with all required covenants as of June 30, 2023.

(8) Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or the price paid to transfer a liability in an orderly transaction between market participants at the measurement date. Inputs used in determining fair value are characterized according to a hierarchy that prioritizes those inputs based on the degree to which they are observable. The three input levels of the fair value hierarchy are as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets and liabilities.

Level 2: Observable inputs other than those included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; or model-derived valuations or other inputs that can be corroborated by observable market data.

Level 3: Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability.

The following tables provide a summary of the financial assets and liabilities measured at fair value on a recurring basis:

	June 30, 2023	December 31, 2022
Non-qualified deferred compensation assets and liabilities		
Other long-term assets, net	$ 16,637	$ 16,299
Accrued expenses	1,758	1,831
Other long-term liabilities	14,927	15,855

Our non-qualified deferred compensation plans investments are reported at fair value based on unadjusted quoted prices in active markets for identifiable assets and observable inputs for similar assets and liabilities, which represent a Level 2 in the fair value hierarchy.

The carrying amount of cash equivalents, accounts receivable, accounts payable and accrued expenses, as reflected in the consolidated balance sheets, approximates fair value due to the short maturities.

(9) Other Income (Expense)

Other income (expense) primarily relates to re-measurement gains and losses associated with our foreign currencies and realized and unrealized gains and losses on our investment in equity securities.

Losses on foreign currencies were $1.7 million and $3.6 million for the three and six months ended June 30, 2023, respectively. For the three and six months ended June 30, 2022, losses on foreign currencies were $10.5 million and $4.9 million, respectively. Gains and losses on foreign currencies are primarily related to our operations in Brazil and Argentina.

During the three and six months ended June 30, 2022, we recognized unrealized losses of $5.9 million and unrealized gains of $0.5 million, respectively, from our investment in equity securities. During the three and six months ended June 30, 2022, proceeds from the disposal of equity securities totaled $6.0 million and $13.4 million, respectively. All investments in equity securities were disposed of prior to December 31, 2022.

(10) Other (Gains) and Losses

Other (gains) and losses, net include gains and losses on the disposal of assets as well as impairments, if any, related to long-lived assets. During the three months ended June 30, 2023, other losses were immaterial. During the six months ended June 30, 2023, we recognized net gains of $1.4 million. During the three and six months ended June 30, 2022, we recognized net gains of $18.0 million and $16.9 million, respectively.

During the second quarter of 2022, we undertook an initiative to alter our decommissioning program, whereby we intend to convert the platform into an artificial reef ("reef-in-place"). Converting to a reef-in-place program reduced the estimated costs associated with decommissioning the wells and platform, and also impacted the time required to complete the decommissioning activities.

The reduction in cost estimates resulted in a reduction in the carrying value of our decommissioning liability and related note receivable as well as impacted the carrying value of our oil and gas producing assets, such that as of June 30, 2022, our decommissioning liability was reduced by $53.0 million and the related note receivable was increased by $2.6 million. In accordance with ASC 410, the carrying value of our oil and gas producing assets was reduced by $38.2 million, which represented the net book value of our oil and gas assets at June 30, 2022. In connection with these changes, we recognized a gain of approximately $17.4 million, which is included in other (gains) and losses, net in our statement of operations.

(11) Segment Information

Our reportable segments are Rentals and Well Services.

The products and service offerings of Rentals are comprised of value-added engineering and design services, rental of premium drill strings, tubing, landing strings, completion tubulars and handling accessories, manufacturing and rental of bottom hole assemblies, and rentals of accommodation units.

The products and service offerings of Well Services are comprised of risk management, well control and training solutions, hydraulic workover and snubbing services, engineering and manufacturing of premium sand control tools, and onshore international production services. The Well Services segment also includes the operations of our offshore oil and gas property.

We evaluate the performance of our reportable segments based on income or loss from operations. The segment measure is calculated as segment revenues less segment operating expenses, including general and administrative expenses, depreciation, depletion, amortization and accretion expense and other (gains) and losses, net. We use this segment measure to evaluate our reportable segments as it is the measure that is most consistent with how we organize and manage our business operations. Corporate and other costs primarily include expenses related to support functions, including salaries and benefits for corporate employees.

Summarized financial information for our segments is as follows:

(12) Stock-Based Compensation Plans

We have a Management Incentive Plan ("MIP"), which provides the issuance of up to 1,999,869 shares of our Class B common stock, par value $0.01 per share (the "Class B Common Stock") for the grant of share-based and cash-based awards.

To date, grants under the MIP have been in the form of shares of Class B common stock ("RSAs"), restricted stock units which will be settled in Class B common stock upon the satisfaction of time-based vesting conditions ("RSUs") and performance stock units which will be settled in Class B common stock upon the satisfaction of time and performance-based vesting conditions ("PSUs").

The RSAs vest over a period of three years, subject to earlier vesting and forfeiture on terms and conditions set forth in the applicable award agreement. RSUs granted in 2022 generally vest in three equal annual installments over the three-year period, subject generally to continued employment and the other terms and conditions set forth in the forms of the RSU award agreements. RSUs granted in 2021 vested in full during the current quarter. PSUs may be earned between 25% and 100% of the target award based on achievement of share price goals set forth in the forms of the PSU award agreements and will vest to the extent that share price goals are achieved based on the terms and conditions set forth in the forms of the PSU award agreements.

The following sets forth issuances under the MIP for the six months ended June 30, 2023 and 2022*:*

	Grants of Share-Based Awards

Unamortized grant date fair value, June 30, 2022 (in millions)	$ 1.8	$ 0.6	$ 3.9	$ 6.3

During the three and six months ended June 30, 2023, we recognized $1.0 million and $2.1 million, respectively, in compensation expense associated with grants of RSAs and RSUs. During the three and six months ended June 30, 2022, we recognized $1.0 million and $1.5 million, respectively, in compensation expense associated with grants of RSAs and RSUs. We are currently not amortizing our PSUs as we have not concluded that it is probable that the performance condition will be achieved.

(13) Income Taxes

The effective tax rate on income from continuing operations for the three and six months ended June 30, 2023 was 11.9% and 25.4%, respectively, and was 20.0% and 21.7% for the three and six months ended June 30, 2022, respectively. The U.S federal statutory rate for all periods was 21%. The effective tax rates for all periods were unfavorably impacted by our current and ongoing operations in foreign jurisdictions which have tax rates significantly in excess of the U.S. federal statutory rate.

The effective tax rate for the three months ended June 30, 2023 was also favorably impacted by approximately $14.9 million in income tax benefits from reversals of uncertain tax positions in foreign jurisdictions and adjustments to valuation allowances on foreign operations.

The effective tax rate for the six months ended June 30, 2023 was also unfavorably impacted by the identification of an error in the tax provision for the year ended December 31, 2022 pertaining to certain net operating loss carryforwards that should have been eliminated as part of a worthless stock deduction taken in the fourth quarter of 2022. As such, we recognized an additional income tax expense of $7.6 million during the three months ended March 31, 2023 with a corresponding decrease to deferred tax assets to correct this immaterial misstatement. Management has determined that this misstatement was not material to any of its previously issued financial statements.

The effective tax rate for the three and six months ended June 30, 2022 was also impacted from non-deductible items, the release of valuation allowances in certain jurisdictions and foreign losses for which no tax benefit was recorded.

We had $4.3 million of unrecognized tax benefits as of June 30, 2023, all of which would impact our effective tax rate if recognized. It is reasonably possible $1.0 million of unrecognized tax benefits could be settled in the next twelve months due to the conclusion of tax audits or statutes of limitations expiration. It is our policy to recognize interest and applicable penalties, if any, related to uncertain tax positions in income tax expense. Unrecognized tax benefits as of December 31, 2022 were $14.0 million and were impacted by the reversals of uncertain tax positions during the six months ended June 30, 2023.

On August 16, 2022, the Inflation Reduction Act (the IRA) was signed into law in the U.S. Among other changes, the IRA introduced a corporate minimum tax on certain corporations with average adjusted financial statement income over a three-tax year period in excess of $1.0 billion and an excise tax on certain stock repurchases by certain covered corporations for taxable years beginning after December 31, 2022 and several tax incentives to promote clean energy. Based on our current analysis and pending future guidance to be issued by Treasury, we do not believe these provisions will have a material impact on our consolidated financial statements.

(14) Earnings per Share

Our common equity consists of Class A Common Stock and Class B Common Stock (the “Common Stock”).

Basic earnings per share is computed by dividing income available to common stockholders by the weighted average number of shares of Common Stock outstanding during the period. Diluted earnings per share is computed using the weighted average number of Common Stock outstanding during the period plus any potentially dilutive Common Stock, such as restricted stock awards, restricted stock units, and performance-based units calculated using the treasury stock method.

The following table presents the reconciliation between the weighted average number of shares for basic and diluted earnings per share.

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2023	**2022**	**2023**	**2022**
Weighted-average shares outstanding - basic	20,126	20,024	20,116	20,011
Potentially dilutive stock awards and units	17	52	20	54
Weighted-average shares outstanding - diluted	20,143	20,076	20,136	20,065

(15) Contingencies

Due to the nature of our business, we are involved, from time to time, in various routine litigation or subject to disputes or claims or actions, including those commercial in nature, regarding our business activities in the ordinary course of business. Legal costs related to these matters are expensed as incurred. Management is of the opinion that none of the claims and actions will have a material adverse impact on our financial position, results of operations or cash flows.

As previously reported in the Form 10-K and Form 10-Q for the quarter ended March 31, 2023, we are currently involved in legal proceedings with the Washington State Department of Revenue in relation to a dispute arising in April 2019 pertaining to a use tax assessment from 2016 as a result of the construction of a vessel by one of our subsidiaries. The matter was appealed to the Washington State Board of Tax Appeals, which affirmed the assessment on May 22, 2023. On June 20, 2023, we appealed this decision to Whatcom County Superior Court where it is currently pending review. In order to appeal the assessment to Whatcom County Superior Court, we paid the full $27.1 million assessment on May 31, 2023.

(16) Discontinued Operations

The following table summarizes the components of discontinued operations, net of tax:

(18) New Accounting Pronouncements

Recently Issued Accounting Standards

On January 1, 2023, we adopted Financial Accounting Standards Board (FASB) ASU 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Statements*, which replaces the incurred loss impairment methodology from previous U.S. GAAP with the Current Expected Credit losses model (CECL). The CECL model utilizes a lifetime expected credit loss measurement objective for the recognition of credit losses on financial instruments at the time the asset is originated or acquired. We estimate expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. This updated guidance applies to (i) loans, accounts receivable, trade receivables, and other financial assets measured at amortized cost, and (ii) loan commitments and other off-balance sheet credit exposures. The adoption of this standard update did not have a material impact on our Condensed Consolidated Financial Statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our unaudited condensed consolidated financial statements and accompanying notes included elsewhere in this Quarterly Report on Form 10-Q. In addition, the following discussion and analysis and information contains forward-looking statements about our business, operations and financial performance based on our current expectations that involve risks, uncertainties and assumptions. Our actual results could differ materially from those anticipated by these forward-looking statements as a result of many factors. including, but not limited to, those identified below and any discussed in the sections titled "Risk Factors" and under the heading "Information Regarding Forward-Looking Statements" in this Quarterly Report on Form 10-Q.

Executive Summary

General

We serve major, national and independent oil and natural gas exploration and production companies around the world and offer products and services with respect to the various phases of a well's economic life cycle.

Historically, we provided a wide variety of services and products to many markets within the energy industry. Our core businesses focus on products and services that we believe meet the criteria of:

- being critical to our customers' oil and gas operations;
- limiting competition from the three largest global oilfield service companies;
- requiring deep technical expertise through the design or use of our products or services, such as premium drill pipe and drilling bottom hole assembly accessory rentals;
- unlikely to become a commoditized product or service to our customers; and
- providing strong cash flow generation capacity and opportunities.

The result of this approach is a portfolio of business lines grounded in our core mission of providing high quality products and services while maintaining the trust and serving the needs of our customers, with an emphasis on free cash flow generation and capital efficiency.

Industry Trends

The oil and gas industry is both cyclical and seasonal. The level of spending by oil and gas companies is highly influenced by current and expected demand and future prices of oil and natural gas. Changes in spending result in an increased or decreased demand for our services and products. Rig count is an indicator of the level of spending by oil and gas companies.

Our financial performance is significantly affected by the rig count in the U.S. land and offshore market areas as well as oil and natural gas prices and worldwide rig activity, which are summarized in the tables below:

Comparison of the Results of Operations for the Three Months Ended June 30, 2023 and March 31, 2023

We reported net income from continuing operations for the three months ended June 30, 2023 (the "Current Quarter") of $67.4 million on revenue of $244.5 million. This compares to a net income from continuing operations for the three months ended March 31, 2023 (the "Prior Quarter") of $29.9 million on revenues of $220.1 million.

Revenues and Cost of Revenues

Revenues from our Rentals segment increased by $3.6 million, or 3.3%, in the Current Quarter as compared to the Prior Quarter primarily due to increased International market activity for our premium drill pipe product lines and accommodation rentals in our U.S. offshore market. These increases resulted in an increased gross margin of 68.8% for the Current Quarter as compared to 66.5% in the Prior Quarter.

Revenues from our Well Services segment in the Current Quarter increased $20.7 million, or 18.6%, from the Prior Quarter. The increase in revenue is driven by our International markets which experienced continued improvements in both production and well control services. Additionally, our U.S. offshore market was impacted by stronger performance from our completion services business unit. Cost of revenues increased $4.5 million, or 5.5%, in the Current Quarter as compared to the Prior Quarter as a result of the increases in revenue discussed above. Gross margin for the Current Quarter also increased to 35.1% as compared to 27.0% for the Prior Quarter.

Other (gains) and losses, net

Other losses were immaterial in the Current Quarter compared to other gains of $1.4 million for the Prior Quarter. Other (gains) and losses, net include gains and losses on the disposal of assets, as well as impairments, if any, related to long-lived assets.

Interest Income, net

Interest income, net was $6.5 million compared to $5.4 million for the Prior Quarter. The increase in interest income was driven by interest derived on overnight money market accounts primarily in Argentina and the U.S.

Income Taxes

The effective tax rate on income from continuing operations for the Current Quarter and Prior Quarter was 11.9% and 44.6%, respectively. The U.S federal statutory rate for both periods was 21%. The effective tax rates for both periods were unfavorably impacted by our current and ongoing operations in foreign jurisdictions which have tax rates significantly in excess of the U.S. federal statutory rate.

The effective tax rate in the Current Quarter was also favorably impacted by approximately $14.9 million in income tax benefits from reversals of uncertain tax positions in foreign jurisdictions and adjustments to valuation allowances on foreign operations.

The effective tax rate for the Prior Quarter was also unfavorably impacted by recognition of a $7.6 million immaterial misstatement arising from certain net operating loss carryforwards that should have been eliminated as part of a worthless stock deduction taken in the fourth quarter of 2022.

We had $4.3 million of unrecognized tax benefits as of June 30, 2023, all of which would impact our effective tax rate if recognized. It is reasonably possible $1.0 million of unrecognized tax benefits could be settled in the next twelve months due to the conclusion of tax audits or statute of limitations expirations. It is our policy to recognize interest and applicable penalties, if any, related to uncertain tax positions in income tax expense.

Comparison of the Results of Operations for the Six Months Ended June 30, 2023 and 2022

We reported net income from continuing operations for the six months ended June 30, 2023 (the “Current Period”) of $97.3 million on revenue of $464.6 million. This compares to a net income from continuing operations for the six months ended June 30, 2022 (the “Prior Year Period") of $67.5 million on revenues of $422.6 million.

Revenues and Cost of Revenues

Revenues from our Rentals segment increased $28.7 million, or 14.9%, in the Current Period as compared to the Prior Year Period. Cost of revenues increased $3.9 million, or 5.7%, in the Current Period as compared to the Prior Year Period. This increase was due to an increase in both average rig count and commodity prices when compared to the Prior Year Period. During the Current Period, we experienced increased revenue from both premium drill pipe in all our markets and bottom hole assembly accessories in our onshore U.S market, which contributed to an increase in gross margin which was 67.7% for the Current Period as compared to 64.9% in the Prior Year Period.

Revenues from our Well Services segment increased $13.3 million, or 5.8%, in the Current Period as compared to the Prior Year Period, primarily as a result of improvements in our production and well control services in our International markets. Cost of revenues increased $1.3 million, or 0.8%, in the Current Period as compared to the Prior Year Period. The increase in cost of revenues was driven by the increase in overall segment revenues and gross margin for the Current Period increased to 31.4% as compared to 28.0% for the Prior Year Period.

Depreciation, Depletion, Amortization and Accretion

Depreciation, depletion, amortization and accretion expense for the Current Period decreased $16.7 million, or 29.0%, as compared to the Prior Year Period. Depreciation expense for the Prior Year Period was impacted by the valuation process under fresh start accounting, where certain fully depreciated assets were assigned a new estimated fair value and a new remaining useful life of less than 36 months.

Restructuring Expenses

Restructuring expenses relate to charges recorded as part of our strategic efforts to reconfigure our organization both operationally and financially. Current Period restructuring expenses decreased $1.2 million, or 38.4%, as compared to the Prior Year Period.

Other (gains) and losses, net

Other gains declined by $15.5 million due to inclusion of a $17.4 million gain from revisions in estimates related to our decommissioning liability in the Prior Year Period.

Interest Income (Expense), net

Interest income, net increased by $9.3 million, primarily from an increase in interest income from operations in our Corporate and Argentina offices.

Other Income (Expense), net

Losses on foreign currencies during the Current Period and Prior Year Period were $3.6 million and $4.9 million, respectively. Losses on foreign currencies during the Prior Year Period also include an expense of $2.7 million which represents a correction of an immaterial error relating to a period prior to our emergence from bankruptcy. Realized and unrealized losses, net on our investment in equity securities for the Prior Year Period were $4.2 million. During the Prior Year Period, we disposed of 1.7 million shares for $13.4 million. All investments in equity securities were disposed of prior to December 31, 2022.

Income Taxes

The effective tax rate on income from continuing operations for the Current Period and Prior Year Period was 25.4% and 21.7%, respectively. The U.S federal statutory rate for both periods was 21%. The effective tax rates for both periods were unfavorably impacted by our current and ongoing operations in foreign jurisdictions which have tax rates significantly in excess of the U.S. federal statutory rate.

The effective tax rate for the Current Period was also unfavorably impacted by a $7.6 million immaterial misstatement recognized in the first quarter of 2023 arising from certain net operating loss carryforwards that should have been eliminated as part of a worthless stock deduction taken in the fourth quarter of 2022, partially offset by favorable impacts of approximately $14.9 million from income tax benefits related to reversals of uncertain tax positions in foreign jurisdictions and adjustments to valuation allowances on foreign operations.

Liquidity and Capital Resources

Cash flows depend, to a large degree, on the level of spending by oil and gas companies for exploration, development and production activities. Certain sources and uses of cash, such as our level of discretionary capital expenditures and divestitures of non-core assets, are within our control and are adjusted as necessary based on market conditions.

Financial Condition and Liquidity

Our primary sources of liquidity have been cash and cash equivalents, cash generated from our operations and from asset sales, and availability under our Credit Facility. As of June 30, 2023, we had cash, cash equivalents and restricted cash of $410.4 million. During the six months ended June 30, 2023 net cash provided by operating activities was $102.9 million, and we received $15.1 million in cash proceeds from the sale of assets. The primary uses of liquidity are to provide support for operating activities and capital expenditures. We spent $45.6 million of cash on capital expenditures during the six months ended June 30, 2023.

The energy industry faces growing negative sentiment in the market which may affect our ability to access capital on terms favorable to us. While we have confidence in the level of support from our lenders, this negative sentiment in the energy industry has not only impacted our customers in North America, but also affected the availability and pricing for most credit lines extended to participants in the energy industry. From time to time, we may enter into transactions to dispose of businesses or capital assets that no longer fit our long-term strategy.

Debt Instruments

We have a Credit Agreement providing for a $120.0 million asset-based secured revolving Credit Facility, all of which is available for the issuance of letters of credit (the “Credit Facility”), which matures in December 2024. The issuance of letters of credit reduces availability under the Credit Facility on a dollar-for-dollar basis.

As of June 30, 2023, our borrowing base, as defined in the Credit Agreement, was approximately $120.0 million and we had $34.7 million of letters of credit outstanding that reduced the borrowing availability. We had no outstanding borrowings under the Credit Facility as of June 30, 2023. We were in compliance with all required covenants as of June 30, 2023.

Other Matters

New Accounting Pronouncements

See Part 1, Item 1, “Unaudited Condensed Consolidated Financial Statements and Notes” – Note 18 – *“New Accounting Pronouncements.”*

Critical Accounting Policies and Estimates

There have been no changes to the critical accounting policies reported in our Annual Report on Form 10-K for the period ended December 31, 2022 (the “Form 10-K”) that affect our significant judgments and estimates used in the preparation of our Unaudited Condensed Consolidated Financial Statements included in this Quarterly Report on Form 10-Q. Please refer to the section titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies and Estimates” in the Form 10-K.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to market risks associated with foreign currency fluctuations and changes in commodity prices.

Foreign Currency Exchange Rates Risk

We do not hold derivatives for trading purposes or use derivatives with complex features. When we believe it is prudent, we may enter into forward foreign exchange contracts to hedge the impact of foreign currency fluctuations. As of June 30, 2023, we did not have any outstanding foreign currency forward contracts.

Commodity Price Risk

Our revenues, profitability and future rate of growth significantly depend upon the market prices of oil and natural gas. Lower prices may also reduce the amount of oil and gas that can economically be produced.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures

Our disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. In addition, the disclosure controls and procedures provide reasonable assurance that such information is accumulated and communicated to management, including our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure. An evaluation was carried out, under the supervision and with the participation of our management, including our CEO and CFO, regarding the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act) as of the end of the period covered by this report. Based on that evaluation, our CEO and CFO have concluded that our disclosure controls and procedures as of June 30, 2023 were not effective to provide reasonable assurance that information required to be disclosed by us in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and is accumulated and communicated to management, including our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure as a result of the material weakness in our internal control over financial reporting described below.

Material Weakness in Internal Control Over Financial Reporting

A material weakness is defined as a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis.

Management identified a material weakness in our internal control over financial reporting as we did not design and maintain effective controls to review the reasonableness of assumptions determined by, and accuracy of calculations performed by, our external tax service providers. This material weakness resulted in an adjustment to deferred tax benefit and income tax benefit that was recorded in the consolidated financial statements as of and for the year ended December 31, 2022. Additionally, this material weakness could result in misstatements of income tax related balances that would result in a material misstatement to the annual or interim consolidated financial statements which would not be prevented or detected.

Remediation Plan for Material Weakness

In order to address the material weakness described above, management has implemented a remediation plan that includes implementing enhancements to our controls around reviewing the reasonableness of assumptions determined by, and the accuracy of calculations performed by, our external tax service providers. As we continue to evaluate and work to improve our internal control over financial reporting, we may determine to take additional measures to address the material weakness.

Based on its evaluation, the controls described above have not had sufficient time for management to conclude that the controls are operating effectively. Therefore, the material weakness described above existed at June 30, 2023, and will continue to exist until the controls described above have had sufficient time for management to conclude that they are effective.

Changes in Internal Control Over Financial Reporting

Other than the changes related to the remediation plan above, there were no changes in internal control over financial reporting during the quarter ended June 30, 2023 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we are involved in various legal actions incidental to our business. However, based on current circumstances, we do not believe that the ultimate resolution of these proceedings after considering available defenses and any insurance coverage or indemnification rights will have a material adverse effect on our financial position, results of operations or cash flows.

Item 1A. Risk Factors

As of June 30, 2023, there have been no material changes in risk factors previously disclosed in our Form 10-K.
